SREEDARSH T M

Remote sensing | Satellite Image Processing | Research Aspirant in GIS &RS

Research Portfolio- https://sreedarsh.vercel.app

ORCID +919400668905 | tmsreedarsh@gmail.com | Location (Kanhangad-Kerala-India)

ABOUT ME

I have 4 years of practical experience in GIS and remote sensing, focusing on disaster management and forestry challenges like forest fires, landslides, floods, and coastal vulnerability I lean into vibe coding with AI platforms to quickly prototype tools, integrate smart workflows, and automate the boring, repetitive tasks. This lets me focus my energy on what matters most: exploring data and growing as a versatile researcher.

RESEARCH EXPERIENCE

July 2026 – Present

Geospatial Analyst | SatSure, Bengaluru, India

- Processing satellite imagery (multispectral, SAR) into actionable insights.
- Building models for crop monitoring, yield forecasting, and climate risk.
- Identifying and classifying features like crop types and land use.
- Creating high-quality reports, maps, and visual outputs for clients.

May 2026 – June 2026

Junior Executive (GIS) | Directorate of Census Operations, Kerala

- Contributing to the 16th Indian Census (Digital Census 2027)
- Collaborating with the MAP Division to maintain data integrity and spatial accuracy for multi-thematic census datasets.

Jan 2025 – June 2025

Project Intern | National Remote Sensing Centre (NRSC), ISRO, Hyderabad, India

- Project: "Burned Area Extraction using AI & ML (Deep Learning).
- Developed an automated, cloud-based data ingestion pipeline in Google Colab using the Earth Engine Python API to efficiently query, filter, and export multi-temporal satellite imagery (Sentinel-2 and Landsat 8/9).
- Engineered interactive GUI widgets to streamline the extraction of 453 specific 31*31 km geographic grids across India, accelerating the preprocessing workflow for downstream machine learning architectures.

ACADEMIC QUALIFICATIONS

DEGREE	UNIVERSITY	SPECIALIZATION / STREAM	YEAR
M. Tech	Bharathidasan University	Geoinformatics	2025
M. Sc	Mangalore University	Geography	2023
B. Sc	Kannur University	Geography Sub: Geology, Statistics	2021
VHSE	Kerala Board of VHSE	ABFS (Science) Agriculture, Biology, Chemistry, Physics	2018

RESEARCH INTERESTS

Areas of Ongoing Learning / Current Learning Goals)

- Remote Sensing, GIS, Digital Image Processing of Satellite Data
- Microwave Remote Sensing (NISAR, SAR, INSAR)
- Python & Earth Engine, Machine Learning, and Deep learning
- Disaster Management/Spatial Analysis

Updated On 16/07/2026

ACCEPTED PAPERS / CHAPTERS

1. SP. Dhanabalan, R. Jegankumar, V. Sindhuja, K. Prakash, **TM. Sreedarsh**. Prioritization of Flood Susceptibility zones using MCDM techniques, TOPSIS, and the CF Model in the Manjalar Watershed: A Part of the Vaigai Basin, South India. DOI PDF

MANUSCRIPTS IN PREPARATION

2. **T.M. Sreedarsh** & Poojith Kumar D P. "Coastal Vulnerability Assessment of Kasaragod and Kannur using Geospatial Techniques." (***Book Chapter)***

ACADEMIC PROJECT

Burned Area Extraction using AI & Deep Learning | *M. Tech Geoinformatics Major Project*

- Applied deep learning algorithms to automate the detection of burned areas from satellite imagery.
- Created a labeled training dataset for identifying burned areas across India to train deep learning models.
- Gained hands-on experience in processing satellite imagery using Google Colab and the Earth Engine API.

Landslide Susceptibility Modeling using Machine Learning | *M. Tech Geoinformatics Mini Project*

- Conducted bivariate analysis and ML techniques to map landslide risks in Kodaikanal and its environs.

Coastal Vulnerability Assessment using Geospatial Techniques | *M. Sc Geography Major Project*

- Analyzed coastal changes and vulnerability indices for the Kasaragod and Kannur regions.

TECHNICAL SKILLS

Programming & Cloud	Python, Google Earth Engine (GEE) API
Development Tools	VS Code, Jupyter Notebook, Cursor, Google Colab, Git & GitHub
GIS Software	ArcGIS and ArcGIS Pro, (DSAS), QGIS, Google Earth Pro
DIP Software	ERDAS IMAGINE
Microsoft Office	Word, PowerPoint, Excel
Others	Generative AI Tools

INVITED TALKS & WORKSHOPS

Resource Person: Geospatial Data Processing with Python | *Oct 2025*

- **Host:** Department of Geography, Kannur University.
- Delivered a one-day hands-on workshop on "**Geospatial Data Processing and Visualization using Earth Engine API & Google Colab**" for the Postgraduate Diploma in Geo-Informatics.

CONFERENCE PRESENTATIONS

- **Site Suitability Analysis for Solid Waste Disposal in Kasaragod Taluk using GIS Techniques**
  - *13th International Conference on Multi-disciplinary Approach for Sustainable Development (UGIT),* Bangalore University | *Dec 2024*
- **Coastal Vulnerability Assessment of Kasaragod and Kannur using Geospatial Techniques**
  - *International Conference on Clean Water, Good Health, Sustainable Cities & Communities (CWGHSCC),* Lovely Professional University, Punjab | *Oct 2023*

WORKSHOPS & ADVANCED TRAINING

- **High-End Workshop (Karyashala) on Hyperspectral Sensing**
  - *Topic:* Agriculture and Water Resources Management.
  - *Organizer:* Accelerate Vigyan Scheme (SERB Initiative).
- **GIAN Workshop on SWAT Modeling (Soil & Water Assessment Tool)**
  - *Topic:* Impact of Landuse/Landcover and Climate Change on Water Resources.
  - *Host:* NIT Trichy (5-Day Workshop).
- **AI for Space Application Training Program**
  - *Host:* Hex-Star Universe | *Feb 2025*
  - Completed 25 hours of intensive training on AI applications in Space Science and Technology.

SEMINAR / CONFERENCE / WORKSHOPS / WEBINAR OVERVIEW

IIRS ISRO E-CLASS	BHUVAN TRAINING	ESRI-MOOC	NASA ARSET	NPTEL	OTHERS
10	3	2	2	-	4

INTERNATIONAL		NATIONAL		WORKSHOP	OTHERS
Journals	Conference	Journals	Conference		Books, Chapters, Monographs, Manuals
-	2	-	-	2	1
